CASE STUDY

Contractor	Project Name	Type	Contact Details
Keith Blackburn	Fitzroy Square	EHB/ERC Cills / Frames	www.keith-blackburn.co.uk

This beautiful listed property, situated in London, was subject to a major window refurbishment due to extensive rot. An entire front section was cut out and replaced with new, screwed and bonded in using Timbabuild. These are original Oak framed windows, likely original to the property. These repairs will extend the lifetime of these stunning windows for another generation.
