| Bates & Misons (Ilminster) | Front Door Letter Box and Cat Flap | Splice & Repair EHB60 | Rachel Bates Tel: 07949 087913 |

**Project description:** New wood spliced in using Timbabuild EHB60, fully repair and repaint the existing structure.

As can be seen this door was in need of a major renovation. New wood sections were spliced in and adhered using the high build and mouldable properties of EHB60 for vertical and in-situ work. Sanded down beautifully to produce an invisible repair.
